Art Unit: 1624

DETAILED ACTION

- 1. This action is in response to a second amendment filed on 8/18/04 and supplemental to the office action mailed 9/2/04. Applicants have amended claims 18-21. Claims 22-31 are new. There are fourteen claims pending and six under consideration. Claims 18-23 are method of using claims. This is the second action on the merits. The application concerns some uses of the compound RS 67333. RS-67333 appears to be the substance 1-(4-amino-5-chloro-2-methoxyphenyl)-3-(1-butyl-4-piperidinyl)-1-propanone.
- 2. Applicants' second amendment crossed in the mail with the first action on the merits dated 9/2/04. According to MPEP §714.05, "[t]he supplemental action *** need not reiterate all portions of the previous action that are still applicable but it should specify which portions are to be disregarded, pointing out that the period for reply runs from the mailing of the supplemental action."
- 3. The withdrawal from consideration of claims 5-13 made in point #3 of the previous action is to be disregarded since the claims are no longer pending. The indefiniteness and utility rejections made to claims 1-3 in point #9 of the previous action are to be disregarded since the claims 1-3 are no longer pending. The indefiniteness rejection concerning "preferably" in claims 19 and 21 made in point #10 is to be disregarded since Applicants have eliminated the word from their pending claims. The enablement rejection concerning preventing diseases in

Application/Control Number: 10/009,559

Art Unit: 1624

claims 18-21 made in point #13 is to be disregarded since the claims no longer concern preventing. The anticipation rejections to claims 1-3 made in point #14 are to be disregarded since claims 1-3 are no longer pending.

Election/Restrictions

- 4. Parts of claims 22 and 23 are newly withdrawn from consideration because art was found concerning RS 67333 and asthma treatment (see MPEP 803.02.).
- 5. Objection is newly made to claims 22 and 23 as containing non-elected subject matter. The claimed compositions and methods that employ them present a variable core. These claims contain compounds drawn to the non-elected species.
- 6. Claims 24-31 are newly withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/11/04.

Claim Rejections - 35 USC § 112

- 7. Claims 22 and 23 are newly rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. What is RS 67333? This was discussed in point #8 of the previous office action.
- 8. Claims 22 and 23 are newly rejected under 35 U.S.C. 112, first paragraph, because the specification does not reasonably provide enablement for treating asthma with compositions of RS 67333 for reasons discussed in point #12 of the previous office action.
